Investigation into Metafi Yielders (“MFY”) Investment Fraud

IFW Global has become aware of various theories being spread amongst the MFY community and felt that it was appropriate to release a public statement to clarify our position in the management of this investigation.

IFW Global is conducting its own independent investigation into Metafi Yielders. IFW **has not** and **will not** disclose sensitive information regarding the investigation and its progress to any external stakeholders until our investigation is finalised. IFW clients will also be briefed with general updates only for operational security reasons.

Anthony McNamara of Five-Sided Square has been conducting his independent investigation into Metafi Yielders; however, he has been cooperating and providing information to IFW Global.

IFW Global has been taking independent steps to corroborate any information provided to us via external sources through our intelligence and investigation networks across the world.
